Education

UBT – University for Business and Technology, Pristina, Kosovo

Bachelor's degree, Computer Science

Oct 2021 - (Currently pursuing)

Skills

JavaScript, React.js, HTML, CSS, Bootstrap, TailwindCSS, Java,MySQL, PHP, Git, C#, Docker, Azure

Experience

Codeway Solutions – Web Developer Internship | Remote

April 2024 – May 2024

Completed a 4-week internship program collaborating with team members, and expanding my skills in web development, data structures, algorithms, and code architecture.

Contributed to the development of a Job board platform using JavaScript, React.js, mySQL, HTML, and CSS to enhance their learning experience and facilitate academic success.

Projects

Robo Friend:

Robo Friend is an innovative project developed using React.js, offering users the ability to search for robots based on their name, ID, or email.

Tesla Clone:

Developed with React.js and Tailwind CSS, this project represents a fundamental cloning of Tesla's main webpage.

Movie App:

Designed and developed a movie application using HTML, CSS, and JavaScript. Integrated a REST API to fetch and display movie information, providing users with a seamless browsing experience.

Achievements

- **FreeCodeCamp Course** , Online(Certificate)
Responsive Web Design
June 2023 – Oct 2023
- **FreeCodeCamp Course** , Online (Certificate)
JavaScript Algorithms and Data Structures
February 2024 – May 2024
